Heleno Vitor Matos Leite

Front-End / Full-Stack Developer | React, Vue.js, Node.js,
TypeScript | AI-Assisted Development | BSc Computing - Dorset
College | Open to Work | Dublin, Ireland
Ireland

Summary

Full-Stack Developer with experience building modern web applications using React, TypeScript, Node.js and REST APIs.

Recently completed my degree in Systems Analysis and Development, with hands-on experience through professional work, freelance projects and production-ready applications.

I am actively seeking opportunities in Portugal and Spain and open to immediate relocation. My goal is to build a long-term career in Europe, contributing to scalable digital products while continuously developing my technical and communication skills.

Experience

Webgest Solutions

Co-Founder & Full-Stack Developer (Freelance)

June 2025 - Present (1 year 3 months)

Dublino

Co-founded a freelance digital studio focused on building modern websites and landing pages using React, Next.js, Vue.js and JavaScript.

- Developed complete web solutions end-to-end, from planning and UX structure to development, deployment and final delivery.
- Used AI tools (ChatGPT, Claude and others) to speed up development, generate code snippets, create content and automate repetitive tasks.
- Built responsive interfaces, reusable components and clean UI patterns to ensure fast and modern user experiences.
- Integrated basic back-end features using Node.js and REST APIs.
- Deployed and maintained applications using Vercel and other modern hosting platforms.

- Worked directly with international clients and remote teams.

Odontoprev

1 year 11 months

Junior Front-End Analyst

June 2022 - May 2023 (1 year)

Баруэри, SP

- Developed front-end features for the company's new e-commerce platform using Vue.js.
- Collaborated with designers and back-end engineers to deliver cross-functional solutions.
- Refactored components and improved state management, increasing maintainability and consistency.
- Participated in Agile ceremonies and code reviews, enhancing code quality and team efficiency.

Digital Channels Intern (Mobile/Ionic)

July 2021 - June 2022 (1 year)

Баруэри, SP

- Built and maintained mobile app features using Ionic Framework.
- Debugged UI and performance issues, improving user experience.
- Rotated across digital channels (mobile, marketing, infrastructure) gaining wide exposure to different teams and technologies.
