Profile

Front-End Developer with 2+ years of hands-on experience in Vue.js and Ionic. Contributed to the redesign of a large-scale e-commerce platform and developed mobile features with Ionic. Skilled in building user-friendly, responsive applications and collaborating in Agile teams. Currently based in Dublin and open to Front-End/Web Developer opportunities.

Experience

Odontoprev – Junior Front-End Analyst

Jun 2022 – May 2023 | Barueri, Brazil

- Developed and maintained front-end features for the company's e-commerce platform using Vue.js.
- Collaborated with designers and back-end developers to deliver new UI components.
- Refactored code into reusable components, improving maintainability and reducing defects.
- Worked in Agile sprints, participating in daily stand-ups and code reviews.

Odontoprev – Mobile Development Intern

Jul 2021 – Jun 2022 | Barueri, Brazil

- Built features for the company's mobile app using Ionic Framework.
- Debugged UI issues and optimized app performance for smoother user experience.
- Rotated across multiple teams (mobile, marketing, infrastructure) before joining e-commerce.
